

Chasing and Observing Solar Eclipses

Stephen J. Edberg

**Jet Propulsion Laboratory
California Institute of Technology**

Chasing eclipses offers numerous, exciting scientific and travel opportunities. Careful planning and preparation will permit observers/travelers to make the most of their time in the Moon's shadow and far from home. What to look for and when, and where upcoming eclipses will occur and what their weather prospects are will be described, as well as some personal experiences around the world.
