## Export Control Information

**Content**

This document DOES NOT contain ITAR controlled information

**Reviewed By**

Gaier, Todd C (7000)

**Review Date**

10/24/2018

**Rationale**

The presentation while intended for a limited audience is mostly made up of slides which have previously released (URS278019). The document does contain technical information about potential defense articles, but it is all either "marketing" in nature or derived from downlinked data. It is therefore not controlled under the ITAR.
